Mr. George W. Childs, whose present location will be occupied by the Farmers and Traders Bank, will probably move to the house adjoining on the West.  
Our venerable fellow-citizen, Dr. John T. Fleming, is rapidly convalescing from a recent illness and injury. Dr. Fleming is one of our oldest citizens and a native of Fleming county. His father, William P. Fleming, was the first banker in Flemingsburg, being President of the Bank of the Commonwealth, located in that town.  
Ladies, don't fail to see my new line of Hats, Bracelets, Neckchains and Locketts, Brooches, Dress Pins. Gold and Silver Handbags, the very latest. Gentlemen's Fobs, Scarf Pins, Chains, Charms and Signet Rings, Walking Canes, Studs, Emblem Pins for all Orders.  
P. J. MURPHY, the Jeweler.  
Dr. A. G. Browning is in receipt of a letter from his son, Throop, announcing his safety at Los Angeles. Mr. Browning was scheduled to be in San Francisco on Tuesday of last week, but for some reason was fortunately detained from reaching the later-stricken city. He reports the earthquake shock at Los Angeles much more severe than the newspapers had reported it.  
Councilman Godfrey Hunsicker is a believer in the "City Beautiful." At least he is putting the environments of his business office in up-to-day-after-tomorrow shape with concrete walks, refreshing grass plats, and such. It doesn't cost a fortune to do this, and if every one would follow Mr. Hunsicker's laudable example, how much more enjoyable would be their own surroundings, and how much prettier the old town would be.

Miss Mary O. Hunter was in the city yesterday.  
Mr. William Stevenson was in the city yesterday.  
Miss Pluvia Gill was visiting in the city yesterday.

Mrs. Sallie H. Kay was guest of Mrs. S. Thompson of Newport before leaving for a visit to Mrs. Dick Pennington of Indianapolis.

Mr. Edward Sidells and family have moved from Washington to the Mayslick neighborhood.

Louisville has raised upwards of \$11,000 for San Francisco sufferers.  
Mr. Joseph F. Martin has rented the Sutton street house belonging to the Riley estate and will open a furniture repair shop.  
Yesterday forenoon Dr. J. J. Wood and daughter, Miss Mary, were driving along Forest avenue, and when near Broadway an approaching automobile frightened the family horse attached to the carriage, which became unmanageable and began running. In making a sharp turn the vehicle careened, throwing Miss Mary out and pitching Mr. Wood forward onto the front seat. The horse broke loose from the shafts and ran down the road. Fortunately neither of the occupants were seriously hurt. Mr. Wood has been in ill-health for some time, and his escape from personal injury was a miracle. The carriage was badly damaged.

According to an item in The London Daily Mirror, Mary Anderson, now Mrs. Antonio De Navarro, Kentucky's most famous daughter, will accept an invitation to be at Louisville for Home-Coming Week in June. An invitation was sent her at the request of Colonel R. M. Kelley.

It's Not So Much What You Save,  
But How You Save It, That Counts!

You could probably save a dollar tomorrow by going without your meals, but it wouldn't be economy.  
The water you use will not cost you a cent if you will only go down to the river and carry it home.  
You can, maybe, get some kind of artificial light for less money than Electric Light or Gas.  
Yard slack is cheaper per bushel than clean lump coal, and some people may (?) be able to figure that they could use either cheaper than they could Cook with Gas, i. e., cost of coal alone against amount of Gas bill.  
But, really, why deprive yourself and household of these valuable modern conveniences when they are right at your door, in fact, in your house and ready to use at a moderate and reasonable price? Drop in at our office, 211 Court street, or call us up, 'Phone 199, and let our representative call on you and explain our interesting proposition.

THIS AD WE ADDRESS PARTICULARLY TO YOUNG MEN.

The tendency for years—and we flatter ourselves that we have been great factors in it—has been, and surely will continue, to wear fashionable garments. The proper materials for suits this spring are gray, dark blue and black serges; some in full suits, others just in coats and pants. Double-breasted coats will still be favored by a good many, and justly so, for it is a very handsome garment. We honestly believe that no other house in the state shows as big a variety in the above described colors and materials as we do. It is always a pleasure to us to show our goods. Hence you will please us and at the same time do yourself justice to come and be shown the kind of clothing you ought to wear. Straw Hats are ripening very fast. We have the newest things in Yacht and Panama. Many will still favor the Soft Hat. In these we show a variety of beautiful styles. By following the crowd you will be sure to come to see us.

HIT BY TRAIN

Mr. George M. Clinger Painfully Hurt Early This Morning

Contractor George M. Clinger was painfully hurt this morning at 6:30 by being hit by the engine of No. 95, Westbound C. and O. freight. He was standing on the switch at Bruce alley waiting for an Eastbound freight to pass, and his attention being divided between some vicious dogs, which he repelled with a stick, and the East-going train, he did not notice the oncoming of the Westbound freight until it was upon him.  
He was thrown about 12 feet against an embankment where he was picked up in a helpless condition and carried to his home.  
There are no bones broken and only one or two bruises on his hands and legs.  
Doctors Reed and Yazell say he is not seriously injured.  
He is suffering much pain and has no use of his lower limbs.  
Mr. Clinger says the Westbound freight did not whistle nor ring a bell.

## KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. We believe Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for chronic kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case."—Mrs. Emma Sawyer, Conway, Ga.

## ANOTHER BANK

The "Farmers and Traders" Soon to Be Started Here

It has been quite generally known for some time that Mayville was to have another Bank, already a large amount of stock in the new financial institution having been subscribed in the city and county.

Messrs. W. Scott Osborne, T. L. Holton, John E. Bouldin, John J. Perrine and W. L. Holton, present Directors of the State Bank of Dover, are the organizers, and on Monday they secured a lease, beginning the first of August, on the building now occupied by Mr. George W. Childs at Second and Market streets, where the new Bank is to be located.

It will be known as The Farmers and Traders Bank, and is to be capitalized at \$50,000.

Mr. Charles B. Pearce, now connected with the State Bank of Dover, is to be the Cashier. The organization of this new company will give Mason county nine Banks, five of them being in this city.

## Latest News

In San Francisco, Monday, a drenching rain added to the sufferings of tens of thousands of homeless people, who were camped on the hills and in parks, many of whom were without waterproof coverings. All possible relief was furnished, however, and the great task of feeding and caring for the homeless is kept up unceasingly. Order has been re-established in the unfortunate city and attention is being turned to the future. Throughout the great business district, where the devastation of the flames is most complete, walls are being razed. Buildings that had not disintegrated before the intense heat are being inspected with a view of reoccupancy, and even the ground in some cases is being cleared for the immediate construction of some sort of building in which to resume business at the earliest possible time.

# LEGISLATIVE GERRYMANDERS

## How the Voters of Kentucky Are Disfranchised, and How the People Can Right the Wrongs

In the following statement to the public the Committee authorized to institute legal proceedings to test the constitutionality of recent redistricting legislation has laid bare the facts and shows to the people of the state the inequalities committed under the guise of needed legislation. The statement of the Committee explains the position of the Republican party in Kentucky. It presents to the public the partisan legislation, which has denied some people of representation in the General Assembly of Kentucky. It is a strong statement of facts, and will prove interesting reading. It follows:

**To the People of Kentucky:** At the last regular session of the General Assembly an act was passed dividing the state into 100 Representative Districts, which has been approved by the Governor and clothed with all the outer habiliments or forms of law. The Constitution of Kentucky provides, among other things, that—

"The First General Assembly after the adoption of this Constitution shall divide the state into thirty-eight Senatorial Districts, and one hundred Representative Districts, as nearly equal in population as may be without dividing any county except where a county may include more than one District, which Districts shall constitute the Senatorial and Representative Districts for ten years. Not more than two counties shall be joined together to form a Representative District. Provided, in doing so the principle requiring every District to be as nearly equal in population as may be shall not be violated."

"If, in making said Districts, inequality of population should be unavoidable, any advantage resulting therefrom shall be given to Districts having the largest territory. No part of a county shall be added to another county to make a District, and the counties forming a District shall be contiguous."

The General Assembly was directed every ten years thereafter to redistrict the state according to this rule.

Conceiving that the act in question was a gross violation of both the letter and spirit of the fundamental law of the state, and that it deprived a large number of our people of the right of self-government, the undersigned were selected, by the unanimous voice of the Republican members of the Legislature, to take steps to assert the rights of the people of the state against this unjust, inequitable and unconstitutional act of the Legislature.

right of self-government, the undersigned were selected, by the unanimous voice of the Republican members of the Legislature, to take steps to assert the rights of the people of the state against this unjust, inequitable and unconstitutional act of the Legislature.

"The right of a citizen to proportionate representation in the Legislature, so far as it can be practically carried into effect by the instrumentalities of human government, is recognized and protected by the Constitution." 155 Ill., 452.

By the act in question it appears that more than a quarter of a million of our people in twenty-four Districts, or rather in twelve of them, have been denied and excluded from representation in the Legislature to all intents and purposes.

The committee having occasion to also consider the acts of the Legislature of May 3d and June 28th, 1893, dividing the state into Senatorial and Representative Districts, and also the act of March 11th, 1898, dividing the state into Congressional Districts, found that they were each and all grossly unfair and violative of the state or Federal law governing the subject.

As evidence that we are not mistaken in our views on this matter we attach hereto tables showing a number of Senatorial and Representative Districts taken from the various acts as well as all the Congressional Districts under the act of 1898.

These figures taken from the acts and the census of the state speak more eloquently and strongly than anything your committee can say on the subject, and need but little comment at our hands.

That we have a remedy against the violation of the supreme law of the state and the United States manifested in these various acts of the Legislature seems to be too clear for dispute or argument.

The courts of the country have not regarded apportionment acts as exceptions to the rule that Legislatures are bound by constitutional limitations in the enactment of laws, and that if they disregard them it is the function of the courts to so declare: McPherson vs. Blacker, 146 U. S. 1; Provy vs. Stever, 11 Kansas 235; State vs. Van Dusen, 24 Neb. 586; State vs. Campbell, 48 Ohio 435; State vs. Murphy, 24

Florida 29; People vs. Thompson, 155 Illinois 451; Parker vs. State, 133 Indiana 178; State vs. Cunningham, 81 Wisconsin 1; Giddings vs. Blacker, 93 Michigan 1; Morris vs. Wrightson, 56 New Jersey Law, 126; People vs. Rice, 135 New York 473; People vs. Van Bokkelen, 73 North Carolina 198.

The courts of New York, New Jersey, Indiana, Michigan, Wisconsin and North Carolina have set aside and declared void apportionment acts, and in all the states that have so far had occasion to pass upon the validity of such laws, the courts have not failed to assert their right and power to decide them valid or invalid as the facts in the particular case required the court to determine.

We have found in none of the acts that have been contested and held invalid in our sister states anything more grossly unfair and violative of the rights of the citizen to participate, upon equal terms in the affairs of his state government, than the acts of our own Legislature that we propose to test in the courts.

At the last election for President in our state the Republican party cast more than 47 per cent. of the total vote cast, and the Democratic party a fraction under 50 per cent. If the Assembly Districts were fairly divided in accordance with the vote thus cast, the Republicans would have sixty-five members of the Legislature instead of thirty-two now held by them.

The committee, after a careful consideration of the law and the facts, have agreed that it is the duty of our people to contest the act of the General Assembly of May 3d, 1893; June 28th, 1893; March 11th, 1898, and the act of March, 1906, and we have the utmost confidence that with the proper effort each and all of these alleged laws will be set aside and held for naught, and that the Legislature will be reconvened and laws more in accordance with justice, right and the Constitution will be enacted.

We deem it prudent that various suits be filed against each act and in every form and manner that such suits have been filed in our sister states, so that there can be no question that some of the number are properly brought, and will, therefore, have to be decided upon their merits.

We have secured eminent counsel to take charge of the litigation in behalf of the people, and it will require considerable money to pay the expenses of these various suits, give our chosen counsel a moderate fee for their services and the actual expense incurred by the committee in prosecuting the contests in the courts. The committee is serving without salary or hope of any financial reward for its services in the matter.

This is not a party matter, as it strikes at the very root of the principle of self-government.

and the equal right of all citizens, under the law, to participate, through their representatives, in the enactment of their laws.

All men irrespective of party affiliations are asked to take an interest in this contest for the preservation of the rights of the people, and to aid us both with voice, pen and purse in our efforts to assert and maintain the constitutional rights of Kentuckians.

According to the census of 1900 the state of Kentucky had a population of 2,147,174, which made the average Representative District 21,471. By House Bill No. 216, which became a law at the last regular session of the Legislature, twenty-four of the one hundred Districts so created have a population and area as follows:

Or a gain of 85,640, and giving to each of these Districts an average population of 34,828, as against a present population of 11,681 for the other twelve Districts.

The first group in 1890 had a population of 130,788. The second group in 1890 had a population of 332,293.

The difference between the two groups of twelve Districts each is 201,505.

The first group in 1900 had a population of 140,174. The second group had by the same census 417,933.

The difference between the two groups of twelve Districts each is 277,759.

By the Act of May 3d, 1893, Warren county, with a population of 30,158, according to the census of 1890, and an area of 528 square miles, was given two members of the Legislature, and divided into two Legislative Districts—Twenty-third and Twenty-fourth.

According to the census of 1900 Warren county had a population of 29,970, and by House Bill No. 216 is given two members of the Legislature, being divided into Districts Twenty-three and Twenty-four, as in the Act of 1893.

By the Act of May 3d, 1893, Christian county, with a population of 34,188, according to the census of 1890, and an area of 694 square miles, was given one member of the Legislature; and by House Bill No. 216 is only allowed one member, although according to the census of 1900 it had a population of 37,962, or an excess of 7,992 over Warren, and 166 square miles greater territory.

Graves county is larger in area and was larger in population both in 1890 and in 1900 than Warren, but is only given one Representative under the Acts of 1893 and March, 1906.

SENATORIAL DISTRICTS.

Twelve Senatorial Districts were created by the Act of the General Assembly of June 28th, 1893, dividing the state into thirty-eight Senatorial Districts, each of which should average a population of 48,911, as follows, to-wit—

Dist.	County.	Pop.	Area.
30	Nicholas, Harrison and Robertson	32,363	847
23	Gallatin, Boone and Owen	34,534	748
31	Mason and Lewis	35,576	680
18	Hart, Larue and Green	37,335	983
10	Brookridge, Hancock and Meade	37,074	1,094
15	Marion, Washington and Taylor	37,853	928
6	17 counties	215,333	5,080

These counties were entitled to 4, but were given 6 Senators.

Dist.	County.	Pop.	Area.
35	Rowan, Bath, Fleming, Carter and Menifee	56,800	1,573
36-37-38	Jefferson	188,598	371
33	Perry, Letcher, Clay, Harlan, Floyd, Pike, Knott, Leslie, Martin, Johnson	85,167	3,085
17	Laurel, Pulaski, Whitley, Knox, Bell, Jackson, Rockcastle	99,214	3,160
6	23 Counties	429,899	9,089

These counties are entitled to 8, almost 9 Senators, instead of 6.

Districts Seventeen and Thirty-three have 184,411 inhabitants according to the census of 1890, or 6,931 more than Districts Ten, Thirteen, Twenty-three, Thirty and Thirty-one combined.

According to the census of 1900 the population of Kentucky was 2,147,174, and the Senatorial Districts should, therefore, average 56,504.

According to the census of 1900 these same twelve Districts had a population as follows, to-wit—

Dist.	County.	Pop.	Area.
30	Nicholas	35,429	
23	Gallatin	33,886	
31	Mason	38,314

A comparison of Districts Twenty-three and Seventeen show the following—

Dist.	Pop.	Area.
23	33,886	3,167
17	129,980	
Difference	96,092	2,421

CONGRESSIONAL DISTRICTS.

It is provided by Act of Congress "That in each state entitled under this apportionment, the number to which each state may be entitled in the Fifty-eighth and each subsequent Congress, shall be elected by Districts composed of contiguous and compact territory and containing as nearly as practicable an equal number of inhabitants. The said Districts shall be equal to the number of Representatives to which such state may be entitled in Congress, no one District electing more than one Representative."—United States Compiled Statutes, Volume I, Chapter II, Section 3, page 10, from Act of Congress of January 16th, 1901.

To show how flagrantly unfair and unjust is the gerrymander of Kentucky into Congressional Districts, and how far the present state law violates both the letter and the spirit of the Federal law, it is only necessary to set forth the facts and to examine a map of the Congressional Districts of our state. The map shows that the Districts are not compact, and are made in all kinds of shapes and formations in the effort to make ten out of the eleven Districts Democratic, as they were at the time the Districts were created.

When it is considered that under a fair apportionment of the state, and estimating the vote cast in the last election for President, the Republicans are fairly entitled to five Congressmen, the gerrymander becomes apparent and somewhat startling in its denial of representation.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Bath, Bracken, Boyd, Carter, Fleming, Greenup, Harrison, Lawrence, Lewis, Mason, Nicholas, Robertson and Rowan, with 176,177 inhabitants, or an excess of 7,211.

**TENTH DISTRICT.**  
Breathitt, Clark, Elliott, Estill, Floyd, Johnson, Knott, Lee, Martin, Magoffin, Menifee, Montgomery, Morgan, Pike, Powell and Wolfe, with 149,068 inhabitants, or a deficit of 19,898.

**ELEVENTH DISTRICT.**  
Adair, Bell, Casey, Clay, Clinton, Cumberland, Harlan, Knox, Letcher, Leslie, Laurel, Monroe, Owsley, Perry, Pulaski, Russell, Wayne, Whitley and Jackson, with 213,282 inhabitants, or an excess of 44,316.

The Eleventh District had in 1890 71,821 more inhabitants than the Seventh District and 78,772 more than the Eighth District.

According to the census of 1900, the Congressional Districts should have an average population of 195,098. The table given below shows that the discrimination is even greater according to the 1900 census than that of 1890:

First District, population 201,866, or an excess of 6,768.

Second District, population 203,336, or an excess of 8,238.

Third District, population 179,518, or a deficit of 15,580.

Fourth District, population 210,314, or an excess of 15,216.

Fifth District, population 232,549, or an excess of 37,451.

Sixth District, population 179,430, or a deficit of 15,668.

Seventh District, population 151,473, or a deficit of 43,625.

Eighth District, population 143,109, or a deficit of 51,989.

Ninth District, population 200,064, or a deficit of 4,966.

Tenth District, population 187,169, or a deficit of 7,929.

Eleventh District, 257,582, or an excess of 62,484.

The Eleventh District had in 1900 106,109 more inhabitants than the Seventh District, and 114,473 more than the Eighth District; the Seventh and Eighth combined having only 37,364 more than the Eleventh.

In discussing the subject of apportionment for Congressional purposes and the duty of the state Legislature to make same according to the number of inhabitants as nearly as may be, Webster, in his famous report, which was adopted by Congress, said: "The Constitution must be understood not as enjoining an absolute relative equality, because that would be demanding an impossibility, but as requiring the Legislature to make an apportionment of Representatives among the several counties according to their respective number of inhabitants as nearly as may be. That which cannot be done perfectly must be done in a manner as near perfection as can be. If exactness cannot, from the nature of things, be attained, then the nearest practicable approach to exactness ought to be made. The Legislature is not absolved from all rule merely because the rule of perfect justice cannot be applied. In such a case approximation becomes a rule; it takes the place of the other rule, which would be preferable, but which is found inapplicable, and becomes itself an obligation of binding force. The nearest approximation to exact truth or exact right, when that exact truth or exact right cannot be reached, prevails, as in other cases, not as a matter of discretion, but as an intelligible and definite rule, dictated by justice and conforming to the common sense of mankind; a rule of no less binding force in cases to which it is applicable, and no more to be departed from than any other rule."

Taxation without representation is tyranny. It was for representation that our fathers fought in the Revolution. The right they secured for us has been taken away by the Kentucky Legislature. Under the infamous system now in operation in some Districts the representation which should properly be given to one citizen is divided between two. To that extent each is disfranchised. It is only a question of degree. The right to disfranchise a citizen altogether is as great as the right to half disfranchise him. In other Districts the representation which should be divided between two or three citizens is given to one. This still further proportionately reduces the representation of the citizen who has already been half disfranchised, and in some cases gives him only one-eighth of the voting strength allowed to a citizen in another part of the state.

This should not be a party question. It is a question of right. Parties and policies should have no more to do with its settlement than with the ownership of chattels or the title to land. The one question should be decided upon the same principles of justice as the other.

We invite the co-operation of all citizens who recognize their responsibilities as such, and who believe in justice between man and man.

### A MEASURE OF MERIT

Maysville Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Maysville is not the testimony of strangers, but the indorsement of Maysville people. That's the kind of proof given here—The statement of a Maysville citizen.

Mrs. Lizzie Burns, living on the Blue Run Turnpike, West End, Maysville, Ky., says:

"My opinion of Doan's Kidney Pills which I expressed through our newspapers in the spring of 1900 has not altered. I value this preparation more highly today than I did when I gave my first testimonial. Before I got Doan's Kidney Pills at J. James Wood & Son's Drugstore I was troubled with severe spells of backache and kidney complaint, which came on every three or six months, and there were times when I was confined to my bed and rendered almost helpless. The quick and decided benefit I received from Doan's Kidney Pills was wonderful. I have noticed slight returns of backache since, but an appeal to Doan's Kidney Pills has never failed to quickly and positively check the trouble. In every case I know among my friends when Doan's Kidney Pills have been used the results have always been satisfactory."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.
